L1 genre
L2 genre
FIB genre
predicted hit rate
17 cells at (0,\,0): bypass/streaming
kernels, correctly predicted zero
mean |err| 0.033 ≤ 0.05 ✓
(leave-one-out, n = 34)
NCU reference (fraction)
L2 read-sector hit rate (calibrated)
(c)
mean |err| 0.055 ≤ 0.06 ✓
(leave-one-out, n = 34)
15 staged-reuse cells share one
fitted value (0.91): a family-level estimate,
not a per-kernel recovery
NCU reference (fraction)
